SUBJECT: Allred Mine, M/049/029, Interstate Brick Company
Project No. 05-5409

RECEIVED

AUG 3 2005

DIV OF OIL GAS & MINING

Dear Mr. Kunzler:

The Resource Development Coordinating Committee (RDCC) has reviewed this proposal. The Department of Environmental Quality/Division of Air Quality comments:

The proposed project, increasing the scope of operations of the Allred Mine, M/049/29, in Utah County, is subject to Utah Air Quality Rule R307-205-5, Mining Activities, since fugitive dust emissions will be generated during mining activities. A permit, known as an Approval Order, is not required solely for the control of fugitive dust, but steps need to be taken to minimize fugitive dust, such as, watering and/or chemical stabilization, providing vegetative or synthetic cover and windbreaks. A permit application, known as a Notice of Intent, should be submitted to the Executive Secretary at the Utah Division of Air Quality at 150 N. 1950 West, Salt Lake City, Utah, 84116, if any on-site crushing of stone occurs according to Utah Air Quality Rule R307-401, Permits, Notice of Intent and Approval Order. A copy of the rules are found at www.rules.utah.gov/publicat/code/r307/r307.

The Committee appreciates the opportunity to review this proposal. Please direct any other written questions regarding this correspondence to the Resource Development Coordinating Committee, Public Lands Section, at the above address or call Carolyn Wright at (801) 537-9230.

Sincerely,

John Harja
Resource Development Coordinating Committee
Public Lands Section
